

AQEEQ TRADING

PROJECTS SUPPLY DIVISION

YOUR PARTNER IN QUALITY ENGINEERING PRODUCTS

- 🔥 Company Profile
- 🔥 Product Range - Piping
- 🔥 Product Range - Valves & Sealing
- 🔥 Product Range - Structural Steel
- 🔥 Product Range - Process Equipments - Static
- 🔥 Product Range - Instrumentation + Electricals
- 🔥 Business Process
- 🔥 Quality + Project Management + Strengths

Aqeeq Trading

Projects Supply Division (PSD)

Our Vision at Aqeeq Trading-PSD is to establish itself as a pre-eminent reputed Global Engineering Products solutions provider and strive to earn our client's enthusiasm through Faith, Integrity and Teamwork.

The Engineering Products requirement of Energy projects are so complex and critical that they can only be met by an experienced specialist with unique capabilities and knowledge such as Aqeeq Trading.

That's why, since 1981, our solutions always combine high quality material, large inventories, logistics, Value-added and Project Management services, at most competitive prices.

UPSTREAM

MIDSTREAM

Company Profile

Aqeeq Trading is a dynamic and professional company offering quality Engineering Products and services throughout the hydrocarbon chain, energy infra-structure, water desalination and waste water treatment industries; we supply material either directly to end user or through their contractors. We cater to regions throughout Middle East, North Africa, Caspian and South Asia

Our Business Activity

We extensively stock and supply Pipes, Fittings, Flanges, Valves, Process Equipments, Instrumentation and Electricals in Carbon Steel, Stainless Steel and Exotic Alloys. We are specialized in providing quick turnaround times for packages with value added services like Coating, Fabrication, Cladding, testing, Installation etc..

Our Infrastructure

2 Warehouse's with Over 10,000.00 Sq. Ft of Warehouse Stocking Area, with over 10,000 different line items on stock, covering various sizes, grades and specifications .

Our Advantage

A multiple skill base : Trade House (Combination of Stocking & Sourcing/Packaging) + Providing Value added & Project Management Services. This ensures our clients get the fastest and most cost-efficient service.

Our Experience

The physical evidence of our success and experience is vast. Maturing from its humble beginnings about three decades ago , Aqeeq Trading is today a multi million dollar enterprise, holding some of the largest stocks in the Middle East and providing excellence in services, catering to over 200 Clients in more than 18 Countries

DOWNSTREAM

PIPING

Aqeeq Trading carries a wide range of CS, LTCS, SS & AS Seamless and Welded Pipes from 1/2" upto 48" in various thickness and material grades, alongwith its corresponding fittings and flanges. All this stock is from reputed manufacturers and can be supplied as per project specifications, AVL/AML, and additional testings if required. Our Stock Range and Supply Range details has been specified as below

Pipes Stock Range

CS, LTCS & AS Seamless Pipes :

Size Range: 1/2" to 24" upto Sch.XXS

Material Grades: A53Gr.B, A106 Gr.B, API 5L Gr.B, X42, X52, X60, X65, A333 & A335 Grades etc..

CS, LTCS & AS Welded Pipes :

Size Range: 2" to 48" Upto Wall Thk 25.4mm

Material Grades: A53Gr.B, API 5L Gr.B, X42, X52, X60, X65, A671, A672 and A691 Grades etc..

SS, Duplex and Super Duplex Seamless & Welded Pipes

Size Range : 1/2" to 24" Upto Wall Thk Sch.XXS

Material Grades : 304/304L, 316/316L, 321, 347, S31803, S32750, etc.. As per A312 and A358 Specs..

Other Nickel Alloys & Copper Nickel Seamless and Welded Pipes

Size Range : 1/2" to 16" Upto Wall Thk Sch.XXS

Material Grades : Alloy 400, 625, 825, C70600, etc..As per ASTM, EN and EEmuA Specs

Pipes Supply Range

Apart from the above Stock Range, Aqeeq Trading is very competitive in supplying below pipes & tubes in various sizes and material grades, according to specific Project requirements and Specifications.

- ◆ LSAW and EFW Pipes in Special Materials,
- ◆ Thickness and Grades
- ◆ Nickel Alloys & Chrome Moly
- ◆ High Yield X Grades
- ◆ Low Temperature
- ◆ Boiler & Heat Exchanger Tubes
- ◆ CRA and Cladded Pipes and Tubes

Fittings Stock & Supply Range

Seamless and Welded Butt Weld Fittings Carbon steel

Size Range: 1/2" to 48" in various wall thickness

Material Grades: A234 WPB and WPHY42 to 80

Low Temperature

Size Range: 1/2" to 48" in various wall thickness

Material Grades: A420 WPL3 and WPL6

Stainless Steel & Special Stainless Steel

Size Range : 1/2" to 24" in various wall thickness

Material Grades : A403 WP 304/304L, WP316/316L, 321, 347, A815 UNS S31803 – Duplex 2205, A815 UNS

S32750 / S32760 - Super Duplex 2507, A234 WP5 / WP9 / WP11 / WP22 / WP91

Other Special Alloy

Size Range : 1/2" to 16" in various wall thickness

Material Grades : Nickel 200/2001. Alloy 400, 600, 625, 800, 825, 276 etc. As per ASTM, EN and EEmuA Specs

Forged Fittings

Carbon steel /Stainless steel and Alloy Steel

Size Range: upto 4" in various wall thickness

Material Grades: A105, A350 LF2 and LF3, A182

F304/304L, 316/316L, 310, 317, 321, 347, A182 F5 / 9 / 11 / 22 / 91

Flanges Stock & Supply Range

Carbon steel /Low Temp

Size Range: upto 1/2" to 48" in various wall thickness and Presurre class

Material Grades: A105, A350 LF2 and LF3

Stainless Steel

Size Range : 1/2" to 20" in various wall thickness and Presurre class

Material Grades : A403 WP 304/304L, WP316/316L, 321

Alloy steel

Size Range : upto 16" in various wall thickness and Presurre class

Material Grades: A182 F5 / 9 / 11 / 22 / 91

Special Alloys

Size Range : 1/2" to 16" in various wall thickness and Presurre class

Material Grades : Nickel 200/2001. Alloy 400, 600, 625, 800, 825, 276 etc. As per ASTM, EN and EEmuA Specs

Valves & Sealing

Aqeeq Trading supplies a wide range of valves and actuators with sizes ranging from 1/2" to 36", pressure ratings of 150 to 1500. All valves are from reputed manufacturers and can be supplied as per project specifications, AVL/AML, and additional testings if required. Our Stock Range and Supply Range details have been specified as below.

Stock Range

Type

Ball, Gate, Globe, Check, Butterfly, Choke, Plug
Wellhead valves

Carbon steel Forged Valves

Size Range: 1/2" - 2"

Material Grades: A105/A350LF2

Stainless steel forged Valves

Size Range: 1/2" - 2"

Material Grades: A182 F316/316L/ F304/304L

Carbon steel Cast Valves

Size Range : upto to 56"

Material Grades: A216

WCB/A351CF3/CF3M/CF8/CF8M

Supply Range

Apart from the above Stock Range, Aqeeq Trading is very competitive in supplying different types of valves in various sizes and material grades, according to specific Project requirements and Specifications. Ball Valves, Gates, Globes & Checks - Wafer Check Valves, Butterfly Actuation Packages Plug Valves API-6-D Check Valves Needle Valves, Choke valve, safety relief valve Manual Actuation Accessories like electric, hydraulic and pneumatic

Stud Bolts and Nuts

These are available in our stock and supplied in the following grades: Stud Bolts: ASTM A193 Grade B7 / B7M Nuts : ASTM A194 Grade 2H / 2HM. They are also available in Stainless Steel and Low Temperature grades. These can be supplied in Cadmium Plated, Galvanised or Black Finish. Stud Bolts are available in ready made cut sizes. They can also be cut to the required sizes from Stud Bars 3m – 5m long.

Size Range: 3/8 Dia. – 3" Dia

Stud Bolts of Various Other Sizes, Types and Grades can be supplied as per Project Specifications with Quick turn around time.

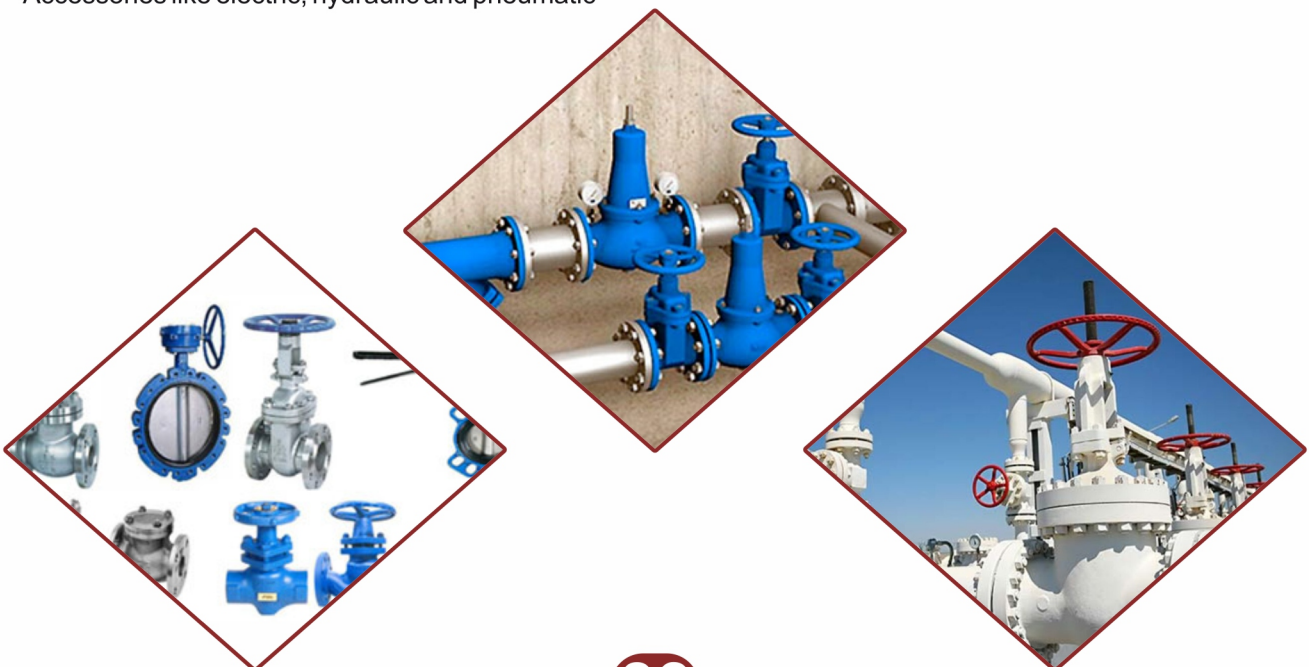

Gaskets

These are available in our stock and supplied in the following grades:

Standard: ASME B16.20, API

Type: Spiral Wound, Compressed Non Asbestos Fibre (CNAF) and Ring Joint.

Size Range : 1/2" to 56" from 150 to 2500 Class

Structural Steel

Aqeeq Trading offers the finest quality Beams/Plates/Channel which is the most sought after sections by the structural engineers, ship building and construction companies all over the world. With infrastructure development playing the lead in today's global scenario engineers are exploring better options to go beyond the conventional norms and to win over the challenges of modern constructions. They are widely used in Industrial Buildings, Multi Storey Building, Road Bridge composite construction, Industrial structures Railways, Ports and Harbour, Offshore Drilling Rigs and in addition to above mentioned utilities, Beams are used in Heavy machinery, industrial boilers, wagon tippers, feeders, stackers, crushers, loaders, cranes, shipping industry and supporting frames for equipment used in metallurgical and other heavy industries

Aqeeq Trading has by choice & in line with the requirements of our quality procedures limited the source of our steel products to only a few mills with very high quality standards

Plates Stock & Supply Range

Size Range : 1x6m to 3x12m
Thickness Range : 4mm Upto 100mm
Material Grades: A36, A283 Gr.C, A285 Gr.C, A515, A516 , A240 304/304L, 316/316L etc..

These Plates can be supplied as per project specifications from reputed mills, with additional testing like HIC, SSCC, UT, etc.. as per project requirements and specifications.

Beams Stock & Supply Range

Universal Beams , American Wide Flange Beams, IPE, Angle, UPN ,Equal Angles, Un equal Angle
Size Range : 25 - 914 mm
Material : EN 10025 S275 JR, BS 4360 Gr. 43A, ASTM A 36, EN 10025 S355 K2G3 JIS 3101 SS 400

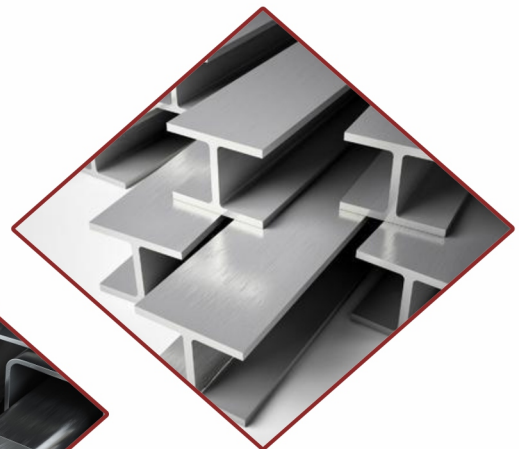

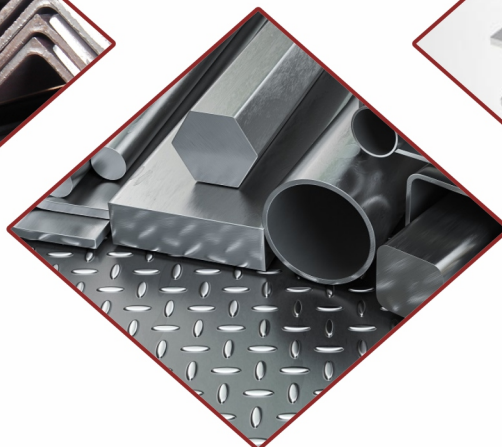

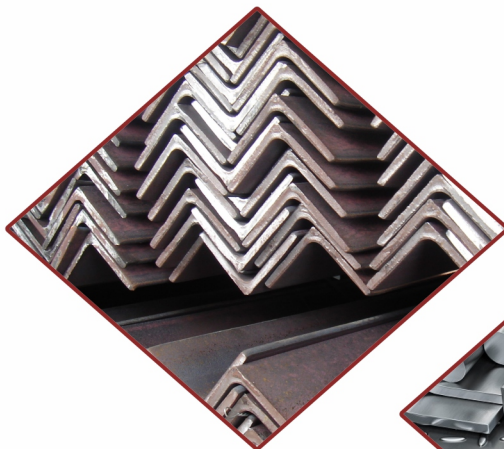

Rolled Steel Angles and Channels upto 200mm/8" in various grades and materials as per BS, EN and JIS Standards.

Hollow Sections in Square and Rectangular upto 500mm/20" in various grades and materials as per BS, EN and JIS standards.

We provide our customers with supporting documentation ensuring clear identification of all products we supply. We adhere to European, American and Far Eastern standards in the industry

Structural Steel materials are offered in many supply conditions including :

- ◆ Quenched & Tempered (Q&T)
- ◆ Normalised
- ◆ Thermo Mechanically Control Rolled (TMCP)
- ◆ As Rolled
- ◆ Additionally certain steels can be tested in the simulated post weld heat treated condition (PWHT)

Process Equipments - Static

We offer a wide range of Static process Equipments like Filters, Strainers and Separators, Packaged process Systems, Flow Control Packages, Heat Exchangers, Induced Gas Flotations Systems, et. With applications ranging from Upstream, Midstream & Downstream Oil & Gas, Power Desalination, Water & Wastewater, Marine & Petrochemical Industries.

These Packages are offered based on detailed review and study of your specifications and data sheets. These Packages & Equipments are designed, fabricated and tested according to international standards and Specifications at the state of the art facilities based in UAE, Europe, USA and Korea.

Filters, Strainers & Separators

AES Delivers Filtration Solutions, Which utilize the best of its proven filtration technologies. Today, OEM's and end users look to AES not only for their well-known fuel filter/water separators, but also for complete integrated fuel and fluid system. Simplex and Duplex Basket Filters, Cartridge & Candle filters for liquid & Gas Filtration Motorized & self Cleaning (Manual & Automatic Back Wash Strainers & filters, Coalesces & Automatic Back wash liquid & Filters, Coalesces & Separator For Gas liquid & liquid-liquid separation, suction & high Pressure Strainers & Return Line Filters, Bag Filters For Chemical Filtration & Air Filtration, Pipeline Strainers Like Basket, Y-Type, And T-Type For Suction & High Pressure, Fuel Oil & Lubricating Oil & Hydraulic Oil Filters Simplex & Duplex Type, Basket Cum Magnetic Filters, Conical / Temporary Strainers, Entrainment Separator, Moisture Separators & Mist Eliminators, Activated Carbon Filters, Pressure Leaf Filters, Notch Filters, Side Stream Filters, Pres- sure Sand Filters

Expansion Joints

Bellows expansion joints, flexible metal hose, flexible rubber joints, special products, guides & anchors. Custom Designer Carbon Steel, Stainless Steel & Exotic materials Bellows & Expansion Joints

Heat Exchangers

We Offer a wide range of Heat Exchangers like Shell & Tube, Plate Heat Exchangers (PHE) - Semi & Full Welded, Brazed, Gasketed and Wide Gap for various segments, e.g. industrial, food, dairy, hygienic, refrigeration, marine and Process applications in Oil&Gas.

We also offer servicing and spare parts like plates and gaskets for all makes of PHE, for e.g. Alfa Laval, GEA, Sundex, etc..

Packages & Skids

We offer a wide range of Packages & Skids for various process applications like, Gas Processing, Filtration & Separation, Water Treatment Packages Oil Removal Cyclones, Nut Shell Filters, Induced Gas Flotation Systems, Oil & Gas Metering Systems, etc..

Others

We also offer below Equipments
Electric Motors
Condensers & Evaporators
Generators
Vessels and Internals

Materials : carbon steel, 304/304L, 316/316L, stainless steel, chrome-molybdenum, monel 400, nickel alloys, Hastelloy, alloy 20 or practically any alloy. Carbon steel can be internally coated by epoxy, rubber, PTFE, etc..

Instrumentation & Electricals

Instrumentation

Aqeeq Trading Instrumentation division is a business unit specializing in Instrumentation Equipments and Valves used in industry to control and measure process variables. Aqeeq Trading strengths include Process Instrumentation, Semiconductor, Power Generation, Petro-Chemical, Desalination, Analytical applications, etc. With extensive engineering expertise in motion & control, market leading breadth of product and services, Aqeeq Trading provides innovative components and complete systems to the customers worldwide. Aqeeq Trading partners with major suppliers from around the world to support its clientele.

Aqeeq Trading provides hardware, connectors, and valves specific to instrument loops including all the materials needed to connect, measure, calibrate, control, and record any process variable such as:

- ◆ Pressure
- ◆ Level
- ◆ Flow
- ◆ Temperature
- ◆ Gas Detection
- ◆ Test & Measuring Equipment

Instrumentation Tubes & Fittings:

Tubes: The specifics of instrumentation tube is to supply a constant pressure to sub-surface safety valves, to provide measurement and analysis, to control lines and chemical injection lines, etc. The most popular steel grades for instrumentation tubes production are TP 304L, TP 316L, 1.4301, 1.4306, 12X18H10T. The scope of supply of instrumentation tube is varying from 1.0 – 63.00 mm.

Tube & Pipe Fittings: Straights, Elbows, Tees, Crosses, Nipples, Couplings.

Electrical Equipments:

We are the sources in providing electrical equipments like Transformers – Oil filled, cast resin type Oil Filled Transformer Fittings:- Standard Fittings - Rating plate , H.V. bushings, L.V. bushings, H.V. tapping switch, H.V. double primary voltage switch, Oil filling and plug, Conservator with oil level indicator, Thermometer pocket, Lifting lugs, Earthing terminal, Oil drain valve, Rollers or skids Optional fittings: Thermometer, Silica gel breather chholz relay, Relief vent valve, Cable boxes Plugin bushings and connectors Box for auxiliary circuits, Protective relay

Resin Transformer Fittings

Standard Fittings: Rating plate, H.V. terminals, L.V. terminals. Lifting lugs, Box for auxiliary circuits, H.V. tapping switch, Securing lugs, Bi-directional rollers, Earthing terminal Optional Fittings: Electronic control with display and thermo resistance, Protection box Forced air cooling, Plug-in bushings and connectors, Sound insulation supports

Cables –Fixed and Main Cables Ignitor and submersible cables etc. Cable Glands and accessories: Braid bonds, C tap connectors, copper bars, Lattice plates , Bond rod to cable lug clamps, Hard drawn copper bars, PVC covered and solid copper tapes, Single & 3 phase protector units and enclosures. Cable distribution boxes, termination kits Cathodic protection, Clamps, composite insulators, connectors, copper weld, earth rods, drop out fuses, electrical hand tools, fuse cut out, hardware, hazardous area materials, insulators, lightning arresters, switchgear panels, pole ballasts etc

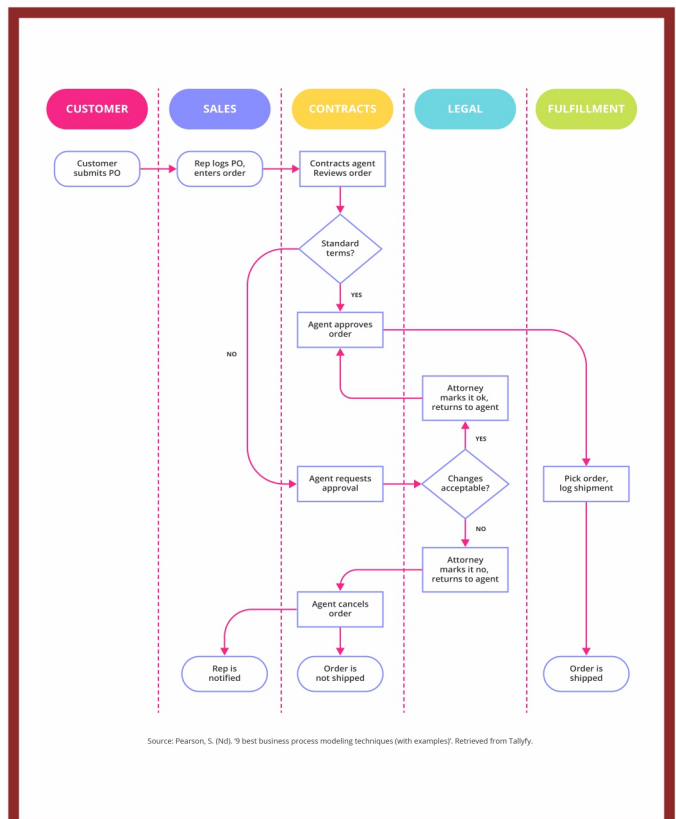

Business Process

Our courteous, dedicated and responsive sales team along with our vastly experience Technical department provide client the best possible service promptly and efficiently. Also our sales team is proficient in proposing alternate/ substitute products to attune to project norms .The core of this team is a blend of personnel with experience and knowledge from engineering, construction, manufacturing, and piping design services industries. Our team is. Together, they bring to customers the service of integrating and packaging of piping and engineering products supply services.

Our employees are experts in areas such as sourcing, purchasing, logistics, stock management, distribution, transport and the application of engineering products like Pumps, Valves, etc. In short, the company covers the entire supply chain. We also have a policy of investing in new facilities such as improving our information system with modern and user friendly ERP solution. Our ERP system helps us in monitoring the status of material ,being it is in the start of production or at the final stage..

These in-house information technologies help us work closely with our clients and provide rapid responses to their needs.

Aqeeq Trading has two warehouses for the purposes of stocking Piping and Instrumentation Products. The main covered warehouse is inside Jebel Ali Free Zone (South) and is attached to the APS Office. This warehouse is equipped with a dedicated staff and machinery to handle Piping and Engineering Products ranging from sizes 1/8" to 56" for jobs as well as stock purposes. The second warehouse covering an area of 50,000 sq. mtrs is located at Dubai . Our stocking facility adopts the latest safety measures to ensure the safety of our workers and material. Our main logistic Platform in the Jebel Ali Free Zone is ideally located between sea port and air port.

Quality, Project Management & Strengths

Quality

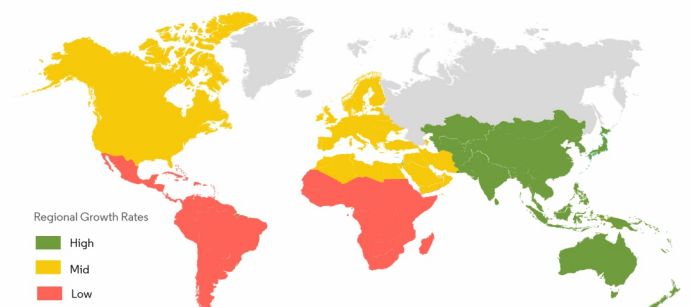

At Aqeeq Trading we are strongly committed to ensure product quality, adherence and conformance to client's specifications and code requirements. All our systems and suppliers are fully audited and approved to ISO 9000: 2000 and are constantly monitored by qualified staff. Aqeeq Trading also keeps on track with the latest developments regarding norms and steel qualities. Modern software and digital services supports the quality awareness of the company. Our Quality System includes the implementation of documented procedures ensuring Total Quality Management. Quality Assurance and Quality Control is of importance at every stage of a Project and is handled from start to finish by a dedicated project team. We supply all the materials certified by the following agencies:

Project Management

The unrivalled product portfolio is not our only strength. We have a network of offices worldwide and we aim to facilitate a smooth delivery process from front-end engineering and design to deliver complete with project dossiers. Customer care is our priority and we pride ourselves on being able to tackle complex issues quickly and effectively. Our extensive market knowledge and far reaching contacts base allows us access to a variety of sources to pinpoint the most beneficial and complete solutions for our customers. No client problem is too big or too small Aqeeq Trading has a history of managing and supplying packages to Engineering Contractors and major clients. All projects are handled by a specific project team within Aqeeq Trading dedicated personnel and facilities.

- ◆ Dedicated fully computerized project office with electronic logs detailing every part of each project
- ◆ Aqeeq Trading personnel regularly visit each manufacturer to establish a list of key contacts at each works responsible for the various disciplines such as production, documentation and commercial negotiations
- ◆ Aqeeq Trading are updated regularly by each manufacturer as to the exact status of every item and visits to each mill continue at regular intervals to ensure that contracts are completed as promised in terms of material quality, documentation and delivery schedule
- ◆ It is this overview of the whole process that creates reassurance, and more importantly, offers peace of mind.

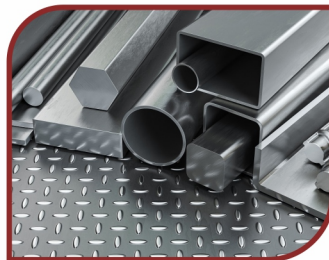

Why Aqeeq Trading

- ◆ Efficient management systems.
- ◆ Over 30 years of experience with good track record of project executions.
- ◆ Experience Qualified Team of Professionals for projects.
- ◆ Package Supplier (Total Solution Provider with value added service).
- ◆ Experts in areas such as sourcing, purchasing, logistics, stock management, distribution and transport
- ◆ Open and honest dialog with employees, suppliers, customers, service providers and shareholders.
- ◆ Approvals with major Oil and Gas companies.
- ◆ Branches located across the Client and Supply hubs Worldwide.
